

# ESD GARMENTS

Lab coat, comfortable and light. Thanks to the high conductive grid density (4%) it grants a perfect reduction of the user's electrostatic field.

## PRODUCT SPECIFICATIONS

<b>Material:</b>	96% cotton + 4% conductive fiber
<b>Material weight:</b>	130 g./sqm.
<b>Color:</b>	WHITE - BLUE - LIGHT BLUE
<b>Standard availability:</b>	Q2CA01300xx - UNISEX 3/4 with 2 front pockets + 1 top pocket
<b>Sizes:</b>	From XS to 4 XL
<b>ESD logo:</b>	On the top pocket

## WASHING INSTRUCTIONS

<b>Washing instructions:</b>	30°C don't use bleaching agents, alkalis, chlorine, disinfection, softeners
<b>Ironing:</b>	Max 110°C
<b>Drying:</b>	In dryer at low temperature max 60°C

## DURABILITY

Maintains its electrical properties according to EN 61340-5-1 after 50 normal washing cycles.

## ELECTRICAL PROPERTIES

<b>Point to point resistance Rp-p:</b>	Typical 10 <sup>8</sup> Ohm per IEC 61340-5-1 - ANSI/ESD STM 2.1
<b>Decay time:</b>	Typical < 2 sec. per IEC 61340-2-1
